

Algebra 1 One-Day T³ Institute

Friday, March 31, 2006

8:30 – 4:30 PM

Taking place concurrently during the T³ Regional Conference, the institute is targeted to teachers of Pre-algebra and Algebra 1 who have little to no experience with the TI-83/84 Plus Family of Calculators

The primary objective of this Institute is to explore pre-algebra and algebra concepts and problems using TI calculators and computer technology as tools for teaching and learning, and to instruct teachers in new and innovative ways to effectively teach mathematics using TI technology. In addition, participants will learn new teaching strategies and will have opportunities for hands-on experience.

This workshop is intended for new users of the TI-83 /84 Plus family of calculators. However, experienced users are also welcome. **This session is limited to 25 participants. Special registration required.**

Presenter: Linda Apicella

T³ National Instructor
Orange, Connecticut
